### SUMMARY

---

Product Designer with 4+ years of experience designing enterprise-grade digital products and complex workflow systems for telecom, SaaS, AI, and ESG/compliance platforms used by global enterprise clients. Specialist in turning dense real-time data, complex telemetry, and multi-step business logic into intuitive, accessible dashboards and responsive applications. Proven track record of scaling tokenized design systems, streamlining developer handoff across cross-functional teams, and improving product KPIs (up to 40%) through data-informed design and rigorous usability testing.

### SKILLS

---

- **Product & Interaction Design:** Enterprise UI/UX, 0 to 1 product design, AI product design, dashboard and data visualization design, information architecture, wireframing, rapid prototyping, responsive web and mobile design
- **Design Systems & Strategy:** Design systems, DesignOps, design tokens, component libraries, UI guidelines and layout standards, AI/ML workflow design, low-code workflow design
- **Research & Validation:** Quantitative and qualitative UX research, user interviews, personas, user journey mapping, heuristic evaluation, usability testing, A/B testing, field validation
- **Accessibility & Collaboration:** WCAG 2.1 AA, developer handoff documentation, cross-functional leadership, mentoring, Agile and DevOps environments
- **Tools:** Figma, Figma AI, Framer, Adobe XD, Photoshop, Illustrator, InVision, Miro, Notion, Claude, Claude Code, Gemini, Visily, Attention Insight

### EXPERIENCE

---

#### Product Designer (UI/UX), 6D Technologies, Bengaluru

Mar 2025 – Present | Clients: Etisalat, BICS, Smart Communications, MTN Ghana

- Led the product redesign of “Magik”, transforming a legacy telemetry platform into an autonomous, AI-driven marketing application with enterprise dashboards and interactive workflows.
- Created a “Decision-First” UX framework that converts complex data streams into actionable, natural-language recommendations, cutting user task completion time by 30%.
- Designed low-code AI-agent workspaces with visual guardrails, enabling non-technical users to build, audit, and deploy multi-channel campaigns 30% faster.
- Designed core AI surfaces in the Customer Value Management (CVM) suite, including AI agents for predictive customer behavior modeling and AI-assisted, automated campaign creation.
- Extended the AI product suite into loyalty management: program configuration, customer segmentation, and rewards optimization.
- Built and manage a centralized, tokenized Figma design system (components, typography, color) that streamlines developer handoff and reduces cross-team implementation friction.
- Partner with product managers, frontend engineers, data scientists, and QA to turn complex requirements into high-fidelity designs, and review built screens against approved designs.
- Combined AI-assisted secondary research with stakeholder interviews and personas (e.g. campaign managers) to inform product decisions.

### **Product Designer (UI/UX Consultant), zeeproc**

Dec 2024 – Feb 2025

- Increased onboarding completion by 25% with a streamlined, conversational initialization flow.
- Designed Customer Success Management (CSM) interfaces integrating real-time intelligence feeds and automated analytics dashboards.
- Designed AI-agent workflows that help customer success teams predict cross-sell and upsell opportunities and manage customer onboarding.
- Established usability testing protocols and mentored junior designers on responsive layouts, component usage, and visual consistency.

### **Product Designer (UI/UX), RIU.ai (Reporting Intelligence Unit)**

Jan 2024 – Dec 2024

- Improved user satisfaction by 40% with a custom analytics dashboard canvas and navigation redesigned from quantitative user behavior data.
- Reduced operational task steps by 35% by redesigning the “My Site Inspection” mobile app for field-asset inspection workflows.
- Led the 0 to 1 end-to-end redesign of an ESG and regulatory reporting platform, simplifying dense environmental compliance data with progressive disclosure.
- Ran stakeholder interviews, field testing, and usability reviews to set accessibility and usability recommendations.

### **Product Designer (UI/UX Consultant), FindPro.ai**

Jul 2023 – Oct 2023

- Optimized web discovery architecture and conversion flows using prototype testing and SEO signals.

### **UX/UI Design Trainee, Supercode Design, Bengaluru**

Nov 2022 – Jul 2023

- Designed responsive B2B and B2C web layouts meeting WCAG 2.1 AA accessibility guidelines.
- Built interactive Figma prototypes to communicate complex design specifications to engineering teams.

### **Intern Architect, Hasta Architects**

Feb 2022 – Sep 2022

- Applied spatial logic and structural planning principles, now carried into information architecture and systems design.

## **EDUCATION**

---

- Master of Computer Applications (MCA), Jain University, Bengaluru (2024 – 2026)
- UI/UX & Visual Design Executive Program, Skillto Education (2022 – 2023)
- Bachelor of Architecture (B.Arch), BGS School of Architecture & Planning (2017 – 2022)
