USHA TAPAL

Product Designer (UI/UX) | Enterprise UX & Design Systems

Bengaluru, India | usha.tapal@gmail.com | +91 9980158546

LinkedIn: linkedin.com/in/usha-tapal | Portfolio: behance.net/ushatapal

PROFESSIONAL SUMMARY

Product Designer with 4+ years of experience designing enterprise-grade digital products and complex workflow systems for telecom, SaaS, AI, and ESG/compliance platforms used by Fortune-level clients. Specialist in transforming dense real-time data, complex telemetry, and multi-step business logic into intuitive, accessible dashboards and responsive applications. Proven track record of scaling centralized design systems, streamlining developer handoff across cross-functional engineering teams, and improving product KPIs through data-informed design and rigorous usability testing.

CORE COMPETENCIES

- **Product & Interaction Design:** Enterprise UI/UX design, 0 to 1 product design, responsive web and mobile layouts, information architecture, wireframing, rapid prototyping, dashboard and data visualization design
- **Design Systems & Strategy:** Design systems management (DesignOps), tokenized component libraries, UI guidelines and layout standards, AI/ML-driven workflow design, low-code workflow design
- **Research & Validation:** Quantitative and qualitative UX research, user journey mapping, heuristic evaluation, usability testing and reviews, A/B testing, field validation
- **Compliance & Collaboration:** WCAG 2.1 AA accessibility, cross-functional leadership, developer handoff documentation, Agile and DevOps environments

TOOLS & TECHNOLOGIES

- **Design & Prototyping:** Figma, Design Tokens and Component Libraries, Adobe XD, Framer, InVision, Photoshop, Illustrator, Miro, Notion
- **AI Tools for Design & Research:** Claude, Claude Design, Figma AI, Visily, Attention Insight, Gemini & Claude Code

PROFESSIONAL EXPERIENCE

Product Designer (UI/UX) — 6D Technologies, Bengaluru Mar 2025 – Present

- **Clients:** Etisalat, BICS, Smart Communications, MTN Ghana
- **Enterprise Dashboard & Workflow Design:** Spearheaded the product redesign of "Magik," transforming a legacy telemetry platform into an autonomous, AI-driven marketing application with intuitive enterprise dashboards and interactive workflows
- **AI-Native CVM Product Design:** Designed core AI product surfaces within the Customer Value Management (CVM) suite, including AI agents for predictive customer behavior modeling and AI-assisted, automated campaign creation
- **Loyalty Management Systems:** Extended the AI-driven product suite into loyalty management, designing interfaces for AI-informed loyalty program configuration, customer segmentation, and rewards optimization
- **Workflow Simplification:** Architected a "Decision-First" UX framework that converted complex data streams into actionable, natural-language UI recommendations, cutting user task completion time by 30%
- **Design Systems & Handoff:** Engineered and managed a centralized, tokenized design system in Figma; defined component libraries, typography, and color schemes to streamline developer handoff and cut cross-team implementation friction
- **Cross-Functional Collaboration:** Partnered closely with product managers, frontend engineers, data scientists, and QA teams to translate complex functional requirements into high-fidelity mockups, reviewing built screens to ensure strict alignment with approved designs
- **AI-Augmented Research:** Used AI tools to efficiently synthesize secondary research from blogs and industry sources, paired with primary research through stakeholder interviews and persona work with users such as

campaign managers, to inform product decisions

- **Low-Code Interface Design:** Built advanced AI-agent workspace interfaces with visual guardrails, enabling non-technical users to build, audit, and deploy multi-channel campaigns 30% faster

Product Designer (UI/UX Consultant) — zeeproc Dec 2024 – Feb 2025

- **Complex Enterprise Systems:** Designed Customer Success Management (CSM) interfaces integrating real-time intelligence feeds and automated analytics dashboards
- **AI-Agent Product Design:** Designed AI agent-driven workflows within the CSM platform to help customer success users predict and manage cross-sell and upsell opportunities and customer onboarding
- **User Onboarding & Flow Optimization:** Boosted onboarding completion by 25% through a streamlined, conversational initialization flow
- **Usability & Mentorship:** Established structured usability testing protocols to validate UI hypotheses and mentored junior designers on responsive layout standards, component usage, and visual consistency

Product Designer (UI/UX) — RIU.ai (Reporting Intelligence Unit) Jan 2024 – Dec 2024

- **0 to 1 Enterprise Redesign:** Led the end-to-end design of RIU.ai, an ESG and regulatory reporting platform; simplified dense environmental compliance data using progressive disclosure patterns
- **Analytics Canvas:** Improved user satisfaction by 40% through a custom analytics dashboard canvas and redesigned navigation structure based on quantitative user behavior data
- **Mobile & Field Workflows:** Redesigned the "My Site Inspection" (MSI) mobile utility, optimizing field-asset inspection workflows and reducing operational task steps by 35%
- **End-to-End Research:** Conducted stakeholder interviews, field testing, and usability reviews to establish accessibility and usability recommendations

Product Designer (UI/UX Consultant) — FindPro.ai Jul 2023 – Oct 2023

- **Web Discovery Optimization:** Optimized web discovery architectures and conversion flows using prototype testing and SEO signal integration

UX/UI Design Trainee — Supercode Design, Bengaluru Nov 2022 – Jul 2023

- **Responsive Web Design:** Designed responsive B2B and B2C web layouts adhering to strict WCAG 2.1 AA accessibility guidelines
- **Design Specification:** Created interactive Figma prototypes to communicate complex design specifications to engineering teams

Intern Architect — Hasta Architects Feb 2022 – Sep 2022

- **Architectural Design:** Applied architectural spatial logic and structural blueprinting principles to complex digital information architecture and systems design

EDUCATION

Master of Computer Applications (MCA) — Jain University, Bengaluru (2024 – 2026)

UI/UX & Visual Design Executive Program — Skillto Education (2022 – 2023)

Bachelor of Architecture (B.Arch) — BGS School of Architecture & Planning (2017 – 2022)
